Program Specification

Array Min Max

1   PROGRAM DESCRIPTION

Write two overloaded methods that accept arrays of values. One method should accept integers and the other should accept double precision floating-point values. The method should print the minimum and maximum values stored in the array.

2   INPUT DESCRIPTION

The methods should accept parameters as described above.

3   OUTPUT DESCRIPTION

Print the maximum and minimum values in the array from within the methods.

4   WHAT TO TURN IN

- Your code
- Multiple test cases
