Program Specification

Random Grader

1 PROGRAM DESCRIPTION

Write a program that randomly assigns a grade according to the *Coding Assignment Rubric* on the course website. Your program will be use to generate your grade on this assignment. Not really. I will actually grade it.

2 INPUT DESCRIPTION

None

3 OUTPUT DESCRIPTION

The program should print a paragraph similar to:

Correctness: 7, Acceptable
Readability: 9, Good
Testing: 1, Poor

Total: 17 out of 30

4 WHAT TO TURN IN

- Your code
- Documented test cases
