Problem Specification

Sums and Multiples

1   PROBLEM DESCRIPTION

Write a program that lists the pairs of double digit numbers that sum to 50 and whose multiple is evenly divisible by 11.

2   OUTPUT DESCRIPTION

Your program should write a line for each number pair that meets the criteria detailed above. A single line may look like:

11, 39

3   WHAT TO TURN IN

- Your code
- Console output
