PROGRAM SPECIFICATION

Design a People Class

1 PROGRAM DESCRIPTION

Design and implement a set of classes that keeps track of demographic information about a set of people, such as age, nationality, occupation, income, and so on. Design each class to focus on a particular aspect of data collection. Create a main driver class to instantiate and exercise several of the classes.

2 INPUT DESCRIPTION

Create a driver class that instantiates 3 different instances of the objects.

3 OUTPUT DESCRIPTION

Print an appropriate summary of each person to the console.

4 WHAT TO TURN IN

- Your code
- A copy of the console output
